

GAVIN BORIS

SOFTWARE AND WEB DEVELOPER

OBJECTIVE

My objective is to elevate my coding skills, While cultivating discipline and professional social knowledge. I aim to achieve this through practical experience, Working diligently and consistently to reach new heights.

EXPERIENCE

W3 SCHOOLS

(20-12-2020-to date)

I embarked on my web development journey using W3Schools,. Through consistent practice and study, I mastered HTML, CSS, and JavaScript, Building a strong foundation for my coding skills.

CODE CAMP

(20-12-2020-to date)

I developed my coding skills through freeCodeCamp's extensive curriculum. By diligently completing interactive lessons and real-world projects, I gained proficiency in HTML, CSS, and JavaScript. This hands-on approach significantly enhanced my coding abilities.

COURSERA

(20-12-2020-to date)

I honed my coding skills through Coursera's comprehensive courses. By engaging in interactive lessons and completing challenging projects, I mastered languages like Python and JavaScript. This structured learning approach greatly improved my programming expertise.
